EDUCATION

Industrial Design, BSD / May 2011
Arizona State University

OBJECTIVE

Seeking a career in Industrial Design with an organization in which I can apply and further develop my experience in product design and development.

EXPERIENCE

Origami Owl / Chandler, AZ / (888) 491-0331 / March 2014-May 2015
Product Designer, Research and Development
   Research, concept & development of jewelry, wearable/functional products & support merchandise.
   Created concept sketches, 2D renderings, 3D models, prototypes & technical drawings.
   Communicated with vendors to finalize product development.

Elixir Industries / Mesa, AZ / (480)526-0206 / March 2012-October 2013
CAD Production Designer and Programmer
   Utilized Solidworks to create 3D models & technical drawings for the production of sheet metal parts.
   Developed and maintained document control system for production documents.
   Programmed parts for production on laser cutter and turret.

Taser International / Scottsdale, AZ / (480) 905-2000 / July 2011-November 2011
Industrial Design Contractor
   Supported engineering team in the design and development of the Axon Flex product line.
   Utilized Solidworks to design and develop parts to prepare for 3D prototypes.
   Prepared 2D artwork and technical information in Illustrator for supporting printed materials.

PIMA Plastics / Tempe, AZ / (480)444-9671 / May 2010-August 2010
Industrial Design Intern
   Participated in brainstorming & ideation sessions with clients.
   Created concept sketches and Solidworks models to develop plastic injection molded products.
   Worked as primary and secondary operator on injection molding machines.

ASU Graduate & Professional Student Association / Tempe, AZ / (480)727-9870 / August 2008-May 2011
Student Worker II
   Directed phone calls & visitors, maintained files & performed data entry.
   Maintained unit documents such as personnel records, budget data, and financial records.
